### Talk

Talk about same and different by asking your child to compare things they know such as pumpkins and carrots or cats and dogs.

### Sing

Your child doesn't care if you sing off key. They love hearing new and favorite songs from the people that mean the most to them.

### Read

Make Story Baskets for your child's favorite books. You can use puppets, figurines, toys, costumes and other props that relate to the book to help your child connect the concepts of the book.

### Write

Ask your child to tell you a story. Write down their story and then read it out loud. You can even ask your child to draw the pictures that go with their story.

### Play

Play basketball or soccer with your child using rolled socks and a laundry hamper. This develops gross motor skills and coordination.
